3. PREAMBLE OF THE SCHEME

The Scheme provides for the amalgamation of Transferor Company with Transferee Company. The Scheme is presented pursuant to provisions of Sections 230 to 232 of Companies Act, 2013, and read together with Companies (Compromises, Arrangements and Amalgamations) Rules 2016 and other applicable provisions of applicable laws.

B. RATIONALE FOR THE SCHEME OF AMALGAMATION

The Transferor Company holding registration as "Core Investment Company" was holding, primarily, shares in Poonawalla Fincorp Limited (erstwhile Magma Fincorp Limited, hereinafter "**PFL**"). However, consequent upon the investment in PFL by the Poonawalla group, based on a transaction which has duly been approved by the RBI, PFL ceased to be a group company, and therefore, the transferor company's investment in PFL ceased to qualify as an investment in "company under the same group".

Hence, the transferor company ceased to meet the criteria for an NBFC-CIC. The Transferor Company has since been deploying the cashflows generated from the transfer of shares of PFL into various capital market activities. The RBI vide email dated 18th September 2022 had asked to make a decision as to whether the transferor company proposes to get itself converted into an NBFC-ICC or merge with an existing NBFC-ICC.

The transferor company has since evaluated and understood that there is no formal process of conversion of NBFC-CIC into NBFC-ICC and for that a fresh registration process only has to be followed.

3 MAGMA CONSUMER FINANCE PVT. LTD

Director

3 MICROFIRM CAPITAL PRIVATE LIMITED

Director

Accordingly, considering the circumstances, the transferor company, evaluated the benefits of amalgamation of the transferor company with the transferee company. Since both Transferor Company and Transferee Company are part of the same group and engaged in similar activities, it would be of better interest and benefit for the Group to have one NBFC, from the perspective of ease of doing business as also to align with the future objectives of the group.

The Scheme is intended to merge these companies and consolidate their business in a manner that is expected to enable better realization of their business potential, yield beneficial results and enhanced value creation for the said companies, their respective shareholders and stakeholders. The amalgamation of the Transferor Company with the Transferee Company would inter alia have the following benefits:

- a) It will enable better and more efficient management, control and obtain synergic benefits of the proposed merger. It will result in a significant reduction in the multiplicity of legal and regulatory compliances required at present to be carried out by the Transferor Company and the Transferee Company.
- b) The proposed merger will ensure cost reduction, easier and efficient compliances and optimum management combining synergies of the companies.
- c) The proposed merger will provide for pooling of the managerial, technical and financial resources of the Transferor Company and the Transferee Company which will help in increasing the overall competitiveness of the group.
- d) Both the Transferor Company and the Transferee Company are engaged in similar activity and therefore, it would be more desirable for the group to have one NBFC in its fold from the perspective of ease of doing business and also a preferable choice in regulator's preference.
- e) The same will lead to strengthening of the single brand leading to a stronger market presence.
- f) The proposed merger will help to achieve greater integration and greater financial strength and flexibility, to maximize overall shareholder value and improve the competitive position of the combined entity.
- g) Greater efficiency in cash management of the merged entity, and unfettered access to cash flow generated by the combined business which can be deployed more efficiently to maximize shareholders value.
- h) The increased asset base of the merged entity would have better financial viability and clearer focus, which would be in the interests of all creditors.

In view of the aforesaid, the Board of Directors of the Transferor Company as well as the Transferee Company have considered and proposed the amalgamation of the entire undertaking and business of the Transferor Company with the Transferee Company in order to benefit the stakeholders of Transferor Company and Transferee Company. Accordingly, the Board of Directors of both the companies have formulated this Scheme of Amalgamation for the transfer and vesting of the entire undertaking and business of the Transferor Company to the Transferee Company pursuant to provisions of Sections 230 to 232 of the Companies Act, 2013 and other applicable provisions of the Companies Act, 2013.

(c) Summary of valuation report including basis of valuation and fairness opinion of the registered valuer, if any, and the declaration that the valuation report is available for inspection at the registered office of the companies;

The Valuation Report have been ascertained by employing the Net Asset Value Method and based on the above, the Share Exchange Ratio has been determined. A SEBI Registered Category I Merchant Banker namely Sumedha Fiscal Services Ltd. has provided its opinion dated 14th December 2022 on the aforesaid valuation report, being fair and proper.

(d) Details of capital or debt restructuring, if any;
The Scheme does not provide for corporate debt restructuring.

(e) Rationale for the Amalgamation;

The Transferor Company holding registration as "Core Investment Company" was holding, primarily, shares in Poonawalla Fincorp Limited (erstwhile Magma Fincorp Limited, hereinafter "PFL"). However, consequent upon the investment in PFL by the Poonawalla group, based on a transaction which has duly been approved by the RBI, PFL ceased to be a group company, and therefore, the transferor company's investment in PFL ceased to qualify as an investment in "company under the same group".

Hence, the transferor company ceased to meet the criteria for an NBFC-CIC. The Transferor Company has since been deploying the cashflows generated from the transfer of shares of PFL into various capital market activities. The RBI vide email dated 18th September 2022 had asked to make a decision as to whether the transferor company proposes to get itself converted into an NBFC-ICC or merge with an existing NBFC-ICC.

The transferor company has since evaluated and understood that there is no formal process of conversion of NBFC-CIC into NBFC-ICC and for that a fresh registration process only has to be followed. Accordingly, considering the circumstances, the transferor company, evaluated the benefits of amalgamation of similar activities, it would be of better interest and benefit for the Group to have one NBFC, from the perspective of ease of doing business as also to align with the future objectives of the group.

The Scheme is intended to merge these companies and consolidate their business in a manner that is expected to enable better realization of their business potential, yield beneficial results and enhanced value creation for the said companies, their respective shareholders and stakeholders. The amalgamation of the Transferor Company with the Transferee Company would inter alia have the following benefits:

- It will enable better and more efficient management, control and obtain synergic benefits of the proposed merger. It will result in a significant reduction in the multiplicity of legal and regulatory compliances required at present to be carried out by the Transferor Company and the Transferee Company.
- The proposed merger will ensure cost reduction, easier and efficient compliances and optimum management combining synergies of the companies.

- c. The proposed merger will provide for pooling of the managerial, technical and financial resources of the Transferor Company and the Transferee Company which will help in increasing the overall competitiveness of the group.
 - d. Both the Transferor Company and the Transferee Company are engaged in similar activity and therefore, it would be more desirable for the group to have one NBFC in its fold from the perspective of ease of doing business and also a preferable choice in regulator's preference.
 - e. The same will lead to strengthening of the single brand leading to a stronger market presence.
 - f. The proposed merger will help to achieve greater integration and greater financial strength and flexibility, to maximize overall shareholder value and improve the competitive position of the combined entity.
 - g. Greater efficiency in cash management of the merged entity, and unfettered access to cash flow generated by the combined business which can be deployed more efficiently to maximize shareholders value.
 - h. The increased asset base of the merged entity would have better financial viability and clearer focus, which would be in the interests of all creditors.
- (f) **Benefits of the Amalgamation as perceived by the Board of directors to the company, members, creditors and others (as applicable);**
- i) **Company:** The proposed Amalgamation will enable better and more efficient management, control and obtain synergic benefits to the business of the Transferor and Transferee Companies with their combined resources and a larger capital and asset base, it is considered desirable and expedient to merge the Companies and for enabling appropriate consolidation and integration of the activities of the Transferor and Transferee Companies with pooling and more efficient utilization of their resources, reduction in overheads and other expenses and improvement in various other operating parameters.
